

# Northern Manitoba Primary Care Services - Patient Survey

## Please read before completing the survey

### **Introduction:**

Thank you for taking part in the Community Primary Care Services Feedback Survey. We want to learn about your experiences and thoughts on primary care services in Northern Manitoba communities.

### **Purpose:**

This survey aims to understand how accessible, inclusive and safe the primary care services are in the Northern communities. Your input is important in making sure that healthcare in the region meets the needs of everyone in the community.

The Northern Collaborative Working Team (NCWT) sets the priorities and guides the planning for the North within the Clinical and Preventive Services Plan for Manitoba. The NCWT consists of the following partner organizations:

- Indigenous Services Canada
- Keewatin Tribal Council
- Manitoba Keewatinowi Okimakanak
- Northern Regional Health Authority
- Norway House Cree Nation
- Ongomiizwin – University of Manitoba
- Opaskwayak Health Authority
- Shared Health

This survey is being collected on behalf of the NCWT by the Project Support Team which helps NCWT in driving the planning activities based on their advice. Your insights will help us understand the current state of services and decide what to focus on for future planning.
